

Alison Court

NEWMARKET

Alison Court is a family townhouse development on a hillside. This private enclave has more than 100 children attending the school across the street. The lovely community was built around a circular road to minimize traffic.

Developed for families of modest means, tenants in this community pay not more than 30 per cent of their income as rent. All of the 48 townhouses have three- or four-bedrooms and 1,150 to 1,250 square feet plus a basement and a garage.
