

# Park Place

## TORONTO

Park Place is a 91-suite, eight-storey condominium development, located on Bathurst Street just south of Sheppard Avenue West. The suites at Park Place have breathtaking views of Earl Bales Park to the east and over the treetops to downtown Toronto to the south.

Park Place is built in an established neighbourhood that has very large homes, many on ravine lots. The building is designed to meet the needs of people retiring in comfort and elegance in their own community.
